I just spoke with Joe DeFao authorizing him to mobilize the additional START personnel you both have requested for the Gold King Response.

The TDD will be over ceiling once these people mobilize, so we will have to amend it first thing Monday morning. We also need to get a site specific TDD in place as soon as possible. I know Weston is working up a CPW and should have it by tomorrow.

I also told Joe that Rob will be the lead COR on the Gold King TDD that is established. Randy, you will have to work with Rob on reviewing the CPW and

resources you are requesting for this response. I really don't want multiple TDDs for each location we are providing support.

Ramon: Please do a PR Nonresponsive Conference Code of AoA for the ER TDD first thing Monday.

Thanks, and call if any of you have questions.
